

Find it interesting that this is being posted while we recover from Hurricane Irma!

Not sure what a “fair sized” boat is but we regularly accommodate vessels in the 40’ to 50’ range and sometimes even larger. All transient boaters are advised that our restrooms are only open during office hours and that they need to be self-sufficient the balance of the time. I’ve attached a picture of some of the boats we have accommodated and would be pleased to share more. We strive to provide positive experiences for all our boaters within the constraints of our operational layout. Many have enjoyed a great experience and we are sorry yours did not match your expectations.
